Trade Facilitation and Paperless Trade: State of Play and The Way Forward for Asia and the Pacific

15 Dec 2015  
Books

Trade facilitation (the simplification and harmonization of import, export, and transit procedures) including paperless trade (the use and exchange of electronic data and documents to support the trade transaction process), has taken increasing importance as evidenced by the WTO Trade Facilitation Agreement reached in December 2013, as well as the growing number of regional and subregional initiatives aimed at facilitating the electronic exchange of information along international supply chains.

Reducing Trade Costs in Asia-Pacific Developing Countries

2 Dec 2015  
Books

Reducing Trade Costs in Asia-Pacific Developing Countries (Studies in Trade and Investment No. 84). International trade has been a major engine for economic growth and development in Asia and the Pacific. However, overall trade costs remain excessively high in many developing countries of the region. Part I of this publication provides an overview of trade costs in Asia and the Pacific, based on the most recent update of the ESCAP-World Bank Trade Cost Database. Policies and factors affecting international trade costs are identified.

Trade Facilitation in Asia and the Pacific: Which Policies and Measures Affect Trade Costs the Most? 2015 Update

1 Dec 2015
